

Kings Park Neighbors 'Association

February 2005

Dear Neighbor,

We would like to take this opportunity to thank you for your support this past year. We are excited to say that Kings Park Neighbors' Association continues to grow at a steady pace.

One huge accomplishment this year for our community has been the defeat of Kings Park Energy's proposed 300 megawatt power plant. Our help in this outcome has ensured a safer environment for all of us in the years ahead.

We also continue to work diligently in opposing the Long Island Railroad's proposed rail yard in our community. We have sent over 1200 letters in opposition to Senator Flanagan, the MTA and Governor Pataki. We continue to actively meet with our local elected officials to voice our concerns and keep abreast of the latest information.

Our community group is following the many important issues facing this area, including the library status, the Psychiatric Center purchase and redevelopment, and the overall responsible development of an economic base in our area.

KPNA has also been active in various humanitarian efforts, including support of the Kings Park School District's innovative mentoring program. We are providing a scholarship for one of our dedicated high school graduates. We have also been active in one of Long Island's most critical health issues, breast cancer research and awareness.

We have enjoyed working with you this past year in an effort to help our community continue to be a wonderful place to raise our children and hopefully our grandchildren.

We look forward to your continued support and to seeing you at our next meeting, February 7th at 7:15pm in the RJO Intermediate School library.

Best Regards,

Linda Henninger
President, KPNA
